BETA GAMMA SIGMA KEY

The Beta Gamma Sigma Key can be a symbol of academic excellence on your campus.

The Board of Governors of Beta Gamma Sigma encourages chapters to consider adding this symbol of academic excellence to their physical plant. The Key, which is cast from a high quality bronze alloy, can be mounted either indoors or outdoors. The base should be obtained or built locally. Plans for a cast concrete base are available from the Central Office, but native stone or other materials may be used.

The cost of the Key is \$7,000 (U.S.) delivered. The Board of Governors is willing to support this project by allowing chapters to pay \$2,500 (U.S.) at the time of the order, with the balance to be paid in equal installments at the beginning of the institution's next two fiscal years.

Staff members are prepared to assist chapters in fund raising efforts through BGS alumni of the chapter or potential donors in the area of the institution.

To order your Key, please contact James Viehland, Executive Director, in the Central Office.
